# Introduction

---

Where we send investment applications or orders on your behalf to third parties (for example, to buy or sell investment holdings), we make every effort to ensure the best possible result for our clients. This is referred to as best execution. We may transmit or place the order via a third-party platform (an online investment administration service), directly with a fund manager or with a stockbroker, to execute your order.

We're obliged to disclose on an annual basis the top five firms that we send our client orders to. The tables within this report relate to the period 1<sup>st</sup> January 2020 to 31<sup>st</sup> December 2020.

The documentary evidence for the tables below has been retained for audit purposes.

## Section 3 Monitoring and Review

---

- We operate in accordance with our best execution policy. Please ask, if you want to see a copy of our policy.
- Under the terms of our policy, we regularly assess the third parties available to us to identify those that will enable us, on a consistent basis, to obtain the best possible result when arranging for the execution of your orders.
- The third parties that we use, also have responsibilities in relation to best execution and client order handling. We undertake periodic monitoring to make sure that they continue to meet our requirements. This review is carried out at least annually or whenever a significant change occurs that we feel could affect our ability to continue to obtain the best possible results for our clients.

## Section 4 Qualitative Assessment

---

As an Advice Network we have controls in place to oversee the suitability of advice by our AR Firms and review execution venues as part of ongoing activity oversight. We have evidenced research appropriate to the advice provided which considered and compared the reputation, services, costs and fees of these venues to ensure the most appropriate outcome for our clients. We have additional internal controls to review and monitor the close relationships with the Benchmark Capital such as Fusion Wealth and Bright Square SIPP. These controls are in place to ensure that these execution venues are in the best interests of our clients after appropriate research has been completed.
